'PM Scott Morrison speaks in the wake of a climate change summit | ABC News'

You will listen to an excerpt for a press conference held by the Australian Prime Minister Scott Morrison following the recent Climate Summit. The excerpt starts with comments made by the Australian Minister for the Environment, Susan Lee.

1. What is the '100 million dollar package'?
 - a. The latest government programme for plastic recycling
 - b. Government money being invested in international climate funds
 - c. Extra funding for costal conservation initiatives
 - d. A joint fund created by USA and Australia

2. What is the closest meaning of the quote from US President Joe Biden?
 - a. One must save the climate first in order to protect the oceans
 - b. Oceans are the main vectors of climate change
 - c. You can't have one without the other
 - d. The Pacific Ocean is the primary ocean that impacts climate change

3. What does Ms. Lee say about Australian marine parks?
 - a. They are widely recognised as being the best managed in the world
 - b. Australia has performed well, but can do better
 - c. Australia has the 2nd largest area of territorial waters
 - d. The marine parks have saved countless fish species

4. What is the Minister's feeling towards 'blue carbon'?
 - a. It is a word not enough people talk about despite it being so important
 - b. It doesn't do justice to the importance of the situation
 - c. It must target seagrasses, mangroves, and salt-marshes
 - d. The positive impact of blue carbon solutions compared to land-based solutions is undeniably larger

5. What benefits are there in 'blue carbon accounting'?

- a. It will help with quantifiable assessments of carbon reduction schemes
 - b. It will help companies boost profits and be more eco-friendly
 - c. It will improve carbon offset measures
 - d. It will create new jobs in finance

6. Who will the Prime Minister work with on Blue accounting initiatives?
 - a. Major industrial nations like China, India, and the USA
 - b. Neighbouring countries in the Pacific Region
 - c. Any country with undertakings that are of interest to the Australian government
 - d. Pacific Island States and New Zealand

7. What is the main issue with the migratory species?
 - a. They are important for global biodiversity, but directly impacted by local feral animals
 - b. They are predominantly invasive species that are not native to Australia
 - c. They attack populations of endangered turtles
 - d. They have travelled all the way to the South of Australia

8. What is special about the Humpback Whale?
 - a. It travels with hammerhead sharks along migratory routes
 - b. It starts its migratory route in the Arctic ocean
 - c. They eat seagrass to fatten up before travelling south
 - d. It is experiencing population rehabilitation

9. Who are the main beneficiaries of the '\$100 million package'?
 - a. Small communities on coastal islands
 - b. Local seaside townships
 - c. Commercial fisheries
 - d. Small business owners

10. How would you describe the way the Minister describes the cafes along the coastline?
 - a. She sees signs of hope
 - b. She is nostalgic for the vibrant social life that has been lost for good

- c. She wishes that more would be done to help
- d. She feels there aren't enough people in the cafes
